In the Footsteps of Lambert Marie de Rijk (2020): (my manuscript-travels in Europe 1990's to 2020): This is based on the Copenhagen, Leiden and Nijmegen catalogues of microfilm collections. However, over almost twenty years I corrected the information, in my search for minor new projects of my own. I have consulted quite a few of these manuscripts in medieval logic on location in the Research Libraries in Europe. And I have done my outmost to keep the information updated according to the most recent scientific critical editions and catalogues. So much work and so many critical editions are still to be done. In practice, this is the extended and much revised update of the De Rijk Files in Leiden (Latin Medieval Logic)
